Data Entry — Course Summary

A quick reference of what is covered and what you will learn in each session.

QUICK NAVIGATION

Session 01 — Introduction to Data Entry

Session 02 — Spreadsheet Data Entry

Session 03 — Data Quality and Cleaning

Session 04 — Data Validation

Session 05 — Reconciliation Documentation

Session 06 — Final Project Capstone

SESSION 01

Introduction to Data Entry

WHAT YOU WILL LEARN

- ✓ **Define data entry** — and explain its importance in business.
- ✓ **Identify the four main data types:** — text, numbers, dates and currency.
- ✓ **Distinguish between data entry and data management.** — 4. **Explain professional standards** for accuracy, consistency and confidentiality.
- ✓ **Measure their typing speed** — in words per minute (WPM) and accuracy percentage.
- ✓ **Explain why** — attention to detail matters in data entry.

SESSION 02

Spreadsheet Data Entry

WHAT YOU WILL LEARN

- ✓ **Enter data efficiently** — into Excel using best practices.
- ✓ **Use keyboard shortcuts** — to improve data entry speed.
- ✓ **Apply consistent formatting** — fonts, alignment, number formats.
- ✓ **Use AutoFill and AutoComplete** — to speed up repetitive data entry.
- ✓ **Format an entire dataset** — consistently — column widths, header styling, borders.
- ✓ **Explain why** — efficiency matters in professional data entry.

SESSION 03

Data Quality and Cleaning

WHAT YOU WILL LEARN

- ✓ **Identify common data errors** — duplicates, inconsistencies, missing values, typos, formatting issues.
- ✓ **Standardise formats** — dates, phone numbers, names, currency.
- ✓ **Remove duplicates** — using Excel's built-in tools.
- ✓ **Fill missing values** — appropriately.
- ✓ **Document all changes** — made during the cleaning process.
- ✓ **Explain why** — data cleaning is essential for data quality.

SESSION 04

Data Validation

WHAT YOU WILL LEARN

- ✓ **Explain what data validation is** — and why it matters.
- ✓ **Check data against source documents** — for accuracy.
- ✓ **Identify discrepancies** — between the dataset and source documents.
- ✓ **Use Excel's built-in validation tools** — to prevent future errors.
- ✓ **Create a validation report** — documenting all findings.
- ✓ **Explain the difference** — between validation and verification.

SESSION 05

Reconciliation Documentation

WHAT YOU WILL LEARN

- ✓ **Explain what reconciliation is** — and why it matters.
- ✓ **Compare dataset totals** — against source document totals.
- ✓ **Identify and resolve discrepancies** — during reconciliation.
- ✓ **Create a professional data entry report** — documenting all processes.
- ✓ **Apply professional documentation standards** — to data entry work.

SESSION 06

Final Project Capstone

WHAT YOU WILL LEARN

- ✓ **Clean a messy dataset** — standardise formats, remove duplicates, correct errors.
- ✓ **Validate against source documents** — identify and resolve discrepancies.
- ✓ **Reconcile totals** — compare dataset totals with source document totals.
- ✓ **Produce a professional data entry report** — documenting all processes.
- ✓ **Present the work** — to the instructor with confidence.
- ✓ **Explain all decisions** — made during the project.
