Typing Computer Basics — Course Summary

A quick reference of what is covered and what you will learn in each session.

QUICK NAVIGATION

Session 01 — Understanding the Computer

Session 02 — Keyboard Mouse Typing

Session 03 — Files Folders Digital Workplace

Session 04 — Internet Safe Browsing

Session 05 — Email Online Communication

Session 06 — Demonstrated Independence Capstone

SESSION 01

Understanding the Computer

WHAT YOU WILL LEARN

- ✓ **Name and identify** — the five main hardware components of a desktop computer (monitor, keyboard, mouse, CPU/system unit, speakers) and explain what each one does.
- ✓ **Explain the difference** — between a desktop computer and a laptop computer.
- ✓ **Power on** — a computer correctly by pressing the power button and waiting for it to start.
- ✓ **Log in** — to a Windows user account by clicking their name and typing a password.
- ✓ **Identify** — the desktop, taskbar, Start button, and system tray on a Windows screen.
- ✓ **Shut down** — a computer correctly using the Start menu (not by pulling the plug).
- ✓ **Explain why** — shutting down correctly matters (prevents file damage and data loss).

SESSION 02

Keyboard Mouse Typing

WHAT YOU WILL LEARN

- ✓ **Use the mouse confidently** — to perform left-click, right-click, double-click, drag-and-drop, and scroll.
- ✓ **Identify the main key regions** — on a QWERTY keyboard (letter keys, number keys, function keys, navigation keys, modifier keys).
- ✓ **Place their fingers correctly** — on the home row (left hand: A S D F; right hand: J K L ;).
- ✓ **Type using the correct finger** — for each key on the home row.
- ✓ **Use four essential keyboard shortcuts:** — Ctrl+C (copy), Ctrl+V (paste), Ctrl+Z (undo), Ctrl+S (save).
- ✓ **Measure their typing speed** — in words per minute (WPM) and accuracy percentage.
- ✓ **Explain why** — correct finger placement matters for speed and accuracy.

SESSION 03

Files Folders Digital Workplace

WHAT YOU WILL LEARN

- ✓ **Explain what a file is** — and identify common file types (documents, images, videos, audio).
- ✓ **Explain what a folder is** — and why folders are used to organise files.
- ✓ **Create a new folder** — on the Desktop and give it a meaningful name.
- ✓ **Rename a folder** — when the name is not appropriate.
- ✓ **Save a file** — from Notepad into a specific folder.
- ✓ **Move a file** — from one folder to another using cut-and-paste or drag-and-drop.
- ✓ **Copy a file** — to create a duplicate in a different location.
- ✓ **Delete a file** — and restore it from the Recycle Bin.
- ✓ **Organise a messy folder** — of 20 files into a logical folder structure.
- ✓ **Explain why** — good file organisation matters in a professional workplace.

SESSION 04

Internet Safe Browsing

WHAT YOU WILL LEARN

- ✓ **Explain what the internet is** — in simple terms and how it differs from the World Wide Web.
- ✓ **Open a web browser** — (Chrome or Edge) and navigate to a website by typing a URL.
- ✓ **Distinguish between typing a URL and using a search engine.** — 4. **Use a search engine effectively** by typing clear, specific queries.
- ✓ **Identify safe and unsafe downloads** — by examining file types, sources and website credibility.
- ✓ **Recognize common online scams** — including phishing emails, fake websites and advance-fee fraud.
- ✓ **Identify a secure website** — by looking for the padlock icon and HTTPS in the address bar.
- ✓ **Create and use bookmarks** — to save frequently visited websites.
- ✓ **Explain basic digital safety habits** — that protect them and their information online.
- ✓ **Apply the "stop and think" rule** — before clicking links, downloading files or sharing personal information.

SESSION 05

Email Online Communication

WHAT YOU WILL LEARN

- ✓ **Explain what email is** — and how it works in simple terms.
- ✓ **Create a Gmail account** — with a professional email address.
- ✓ **Compose a professional email** — with a clear subject line, proper greeting, well-structured body, and professional sign-off.
- ✓ **Send and receive emails** — confidently.
- ✓ **Attach files to an email** — and download attachments received by email.
- ✓ **Distinguish between To, CC, and BCC** — and explain when to use each.
- ✓ **Use Reply vs Reply All** — appropriately.
- ✓ **Complete a basic online form** — (e.g., a practice registration form).
- ✓ **Join a Google Meet online meeting** — using a meeting link.
- ✓ **Demonstrate email etiquette and safety** — including recognising suspicious emails.

SESSION 06

Demonstrated Independence Capstone

WHAT YOU WILL LEARN

- ✓ **Power on a computer and log in** — to a Windows account without assistance.
- ✓ **Create a folder** — on the Desktop with a specific name.
- ✓ **Open Microsoft Word** — and type a short paragraph (minimum 50 words).
- ✓ **Save the document** — inside the created folder.
- ✓ **Open a web browser** — and search for a specific file.
- ✓ **Download the file** — from a safe, trusted source.
- ✓ **Open Gmail** — and compose a new email.
- ✓ **Attach the downloaded file** — to the email.
- ✓ **Send the email** — to the instructor.
- ✓ **Complete a knowledge check quiz** — covering all sessions.
- ✓ **Demonstrate improved typing speed** — compared to their Session 2 baseline.
- ✓ **Reflect on their learning** — and identify areas for continued growth.
